The Fund returned 1.06% in July vs. 3.91% for the TSX Total Return.

July marked further consolidation in the Gold space as both Goldcorp and Fortuna Silver Mines completed corporate acquisitions.

Fortuna closed its transaction of Goldrock Mines Corp. which owned 100% of the Lindero gold deposit in Argentina boosting Fortuna's presence in Latin America. While on the opposite side of the equator, Goldcorp paid C\$520 million for Kaminak Gold Corporation, who's main asset was located just south of the City of Dawson, Yukon.

The Fund has now participated in seven completed transactions in the gold space year to date and we are hopeful that this trend continues while the underlying commodity holds its strength.

Regards,

Dave Heden

*** S&P/TSX Comp Total Return Index - The TSX Total Return Index is a widely-known equity index of Canadian large-cap companies. Investing in US and Canadian equities long and short is the primary strategy for HGC as part of the merger arbitrage strategy but HGC does not invest in all or necessarily any of the securities that compose the market indexes. Reference to the indexes does not imply that HGC will achieve returns similar to the indexes.

**** Hedge Fund Research Inc. : Merger Arbitrage Index - Performance is subject to minor variances due to independent Manager trailing reporting

++ Duration & Liquidity is calculated without including SPAC positions
